Memorandum for: Deputy Director (Administration)

Subject: Property Survey Reports 00602, 00603, 00634

1. The Property Survey Board, at its meeting on 12 July 1954, considered Survey Reports 00602, 00603, and 00634. These reports cover the disposal and relief from accountability and responsibility for unserviceable ammunition. The amounts involved are indicated as follows:

25X1C

00602 - [REDACTED]
00603 - [REDACTED]
00634 - [REDACTED]

2. The Board considered the information as submitted in support of disposition of the above indicated ammunition. It was the unanimous opinion of the Board that there was insufficient information at this time to warrant the relief from responsibility and accountability for the property as described. The Board recognized that the history of the situation leading up to the current situation in regards to the original purchase, shipment, and storage of this ammunition [REDACTED] is a very complicated one and many factors are involved. It was the feeling of the Board that no one individual or group of individuals is specifically responsible; however, additional information is necessary before a final recommendation is made in regard to relief from accountability and responsibility. Accordingly, the Board will initiate appropriate inquiry to obtain the desired information, at which time a report of findings and recommendation will be made to the DD/A.

25X1A6a

3. The Board unanimously agreed, however, that the amount of ammunition described as unserviceable and presently located [REDACTED] represents a potential risk and damage to the personnel of the station. Accordingly, it was the unanimous recommendation of the Board that the [REDACTED] Station be authorized to dispose of the unserviceable ammunition as soon as possible without prejudice to the eventual recommendation by the Board as to relief from accountability and responsibility in this matter.
